

CONSTRUCTION QUALITY ASSURANCE PROFESSIONAL – EXPRESSION OF INTEREST (FIFO)

ORANGE / NSW

Summary:

Enthalpy are experts in the field of Project Delivery; we've provided a wide range of services to support our clients with planning, controlling and delivering projects in the resource industry for over 30 years. We enable clients to minimise risks, assure project outcomes and maximise investment returns.

We are seeking an enthusiastic and experienced Quality Assurance Professional to join our clients onsite project team in Orange, NSW. This is a fly in/fly out position on a roster which can be discussed offering \$1300 – \$1600 per day for the right candidate.

The primary objective of the position is to develop, maintain and implement a quality management framework for our program.

As a highly valued member of the Enthalpy team, you will:

- Ensure all construction works comply to technical specifications, scopes of work and drawings
- Provide technical advice and assistance to the project construction team on all quality related activities
- Undertake daily inspections (covering civils, structural, what is this – SMP?) to ensure services provided by project construction team meet requirements
- Ensure all non-conforming products, services and activities are accurately recorded and work with project construction team to ensure timely close out
- Report quality exceptions, escalate and drive actions for improvement
- Perform relevant material inspections in accordance with specifications, ensure spell this out – what is OSD's? are recorded and progressed
- Monitor the implementation of the approved project management plans
- Monitor all quality related activities on the project
- Recommend and/or implement improvements when required.

Requirements for the role:

- 10 years' experience in QA/QC Inspection in the Resources/ Mining and/or Construction industry
- Relevant trade or tertiary qualifications
- C Class drivers licence
- Appropriate QA/QC qualifications, including but not limited to:
 - NACE Level 11 and equivalent (Paint Inspection)
 - Welding Inspection Certification (CSWIP 3.1)
 - Lead Auditor ISO 9001.
- Ability to solve problems with many variables and unique situations
- Proven conceptual, research, planning, analytical and problem-solving skills
- Ability to work autonomously as well as part of a multidisciplinary team
- A pro-active attitude.

Applications

Enthalpy is managing the recruitment process and is not taking external recruiter applications. If you would like to be part of an exciting organisation and possess the skills and experience outlined above, please click Apply Now and attach your CV and Covering Letter or email enquiries@enthalpy.com.au.
